Items to be discussed:

1. TM Saunders reported that a representative of Library recently confirmed that there will be no imminent decision or action on their part concerning a new building or interest in the Town Center lot.
2. The Committee recommends to Council that the Town pay to place electrical power on the town property at Main\Town Centre Drive, consisting of two power pedestals installed away from the street to facilitate events on the property
3. The committee reviewed a rough draft of a budget for a replacement Town Hall/Police building on the site of current Town Hall. After discussion it decided to recommend to Council to authorize the Town Manager to seek competitive bids for site planning so that a more detailed budget can be developed.

FYI Only:

Recommendations to Council:

Action item(s):

1. **Approve the installation of two electric power pedestals on the Town Centre lot for the use of events, concerts, etc.**
2. **Approve the solicitations of bids for site planning for a new Town Hall on the same lot as the current Town Hall.**
