

# MARY BALL ROAD NEIGHBORHOOD IMPROVEMENT PROJECT

## NEWSLETTER

August 2013

“Improving the living conditions of twenty two households by means of housing rehabilitation and installation of public water & sewer, sidewalks, and other neighborhood improvements.”

### Phase II Sidewalk and Streetlights

#### To Keep You Informed:

The second phase of the Mary Ball RD Neighborhood Community Improvement Project contains sidewalk and streetlights.

The streetlight portion has been completed with eight lights installed.

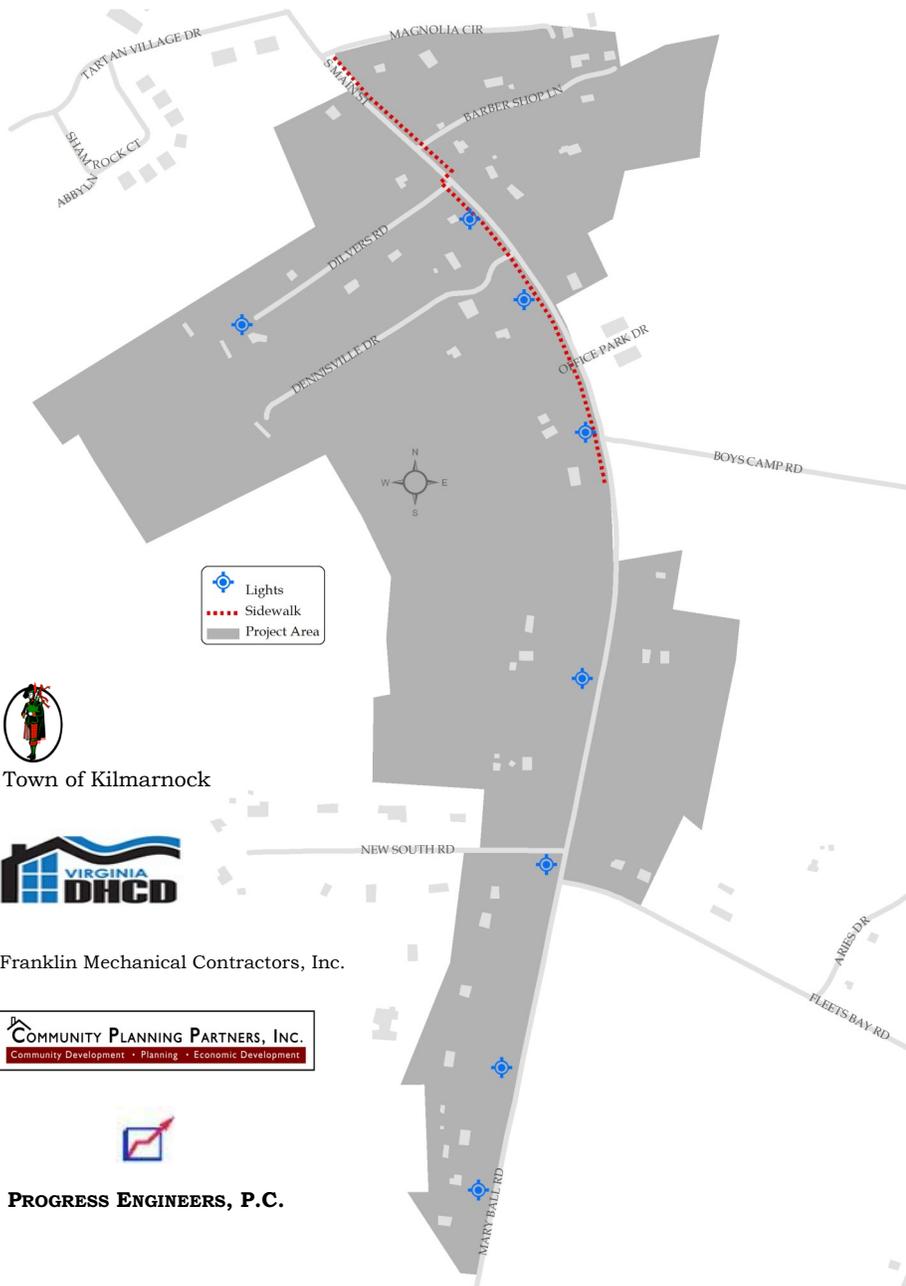

We will now begin the sidewalk installation. At 1,787 linear feet, the sidewalk will run from Magnolia Drive to just south of Boys Camp RD.

There will be a crosswalk area at Dilters RD.

Expect to see the contractor, Franklin Mechanical, to begin work very soon. Please be patient with the construction and remember to be cautious when driving through the construction zone.

Pay careful attention when turning in or out of your driveway.

All disturbed areas, including driveways, will be repaired back to original condition.
