Notes on Discussions:

1. The committee discussed the recent Lancaster Emergency Planning Committee meeting and some of the issues raised there. The next LEPC meeting is planned for January 15.
2. TM Saunders reported that all of the Town’s backup systems worked as expected during the recent visit of Tropical Storm Sandy with the exception of one diesel by-pass pump. The Public Works dept. will investigate that problem and make a recommendation soon. Otherwise all departments are to be commended for their work during the storm and for their cooperation with other responding agencies and jurisdictions.
